PROMOTING SCIENCE AND TECHNOLOGY FOR 60+ YEARS

SPONSORSHIP OPPORTUNITIES

Sir/Ma'am,

Quinte Regional Science & Technology Fair (QRSTF) is looking for sponsors to support our 60+th year providing local students with a positive educational experience designed to foster a lifelong love of science and technology.

On April 10, 2027 at Centennial Secondary School we will be hosting our annual Science Fair, which offers students in grades 4 to 12 the opportunity to have their projects constructively evaluated. Winners proceed to the national fair where they will share a week of competition, socializing, cultural activities, scientific tours and workshops. Some students attend international Science Fairs.

All funds raised will be for the sole purpose of organizing, promoting and running the annual QRSTF and sending students and delegates of Hastings-Prince Edward Counties to the national science fair, the Canada Wide Science Fair. No funds are used for salaries. The QRSTF committee is a completely volunteer non-profit corporation and a registered charity.

Sponsorship Opportunities

Level	\$	Recognition				
Troposphere	20-499	Logo on website	Named in awards program			
Stratosphere	500	Logo on website	Logo in Awards program	Sponsor a best in grade award	Presents at awards ceremony	
Mesosphere	1000	Logo on website	Logo in Awards program	Sponsor a best in fair award	Presents to a group at awards ceremony	
Thermosphere	2500	Bigger logo on website	Prominent logo in Awards Program	Sponsor a Canada Wide candidate	Presents a prestigious CWSF award	Logos on letterheads
Exosphere	5000	Bigger logo on website	Logo on back of Awards Program	Sponsor 2 CWSF candidates	Presents a Grand Award	Logos on letterheads & certificates

As always any donation is greatly appreciated. Our mission is to foster and support the growth of science and technology in the youth of the Quinte region. More information about our organization can be found at www.QRSTF.ca. For additional Sponsorship opportunities or to find out how you can help please contact the undersigned.

Thank you.

PROMOTING SCIENCE AND TECHNOLOGY FOR 58 YEARS

ABOUT QRSTF

Mission

To encourage, foster enthusiasm, develop self-confidence, inspire and support an interest in science, technology and engineering for the youth in our area and to provide our students with the opportunity and skills to foster a lifelong love of science.

Why Science Fairs?

Science Fairs offer students in grades 4 to 12 the opportunity to create original scientific research or innovative projects which are then displayed at various levels of competition. Science Fairs are offered at school, district, regional, national and international levels. The top regional science fair projects are submitted to the national fair where young people share a week of competition, socializing, cultural activities, scientific tours and workshops. Some students also go on to attend international Science Fairs.

Science Fairs allow students to meet and learn from experienced scientists and technologists, to discover where new career opportunities exist and to make industry contacts which could lead to a first job. Students who develop in Science Fair projects always agree that they have fun doing the work while learning something new about the world around them. Their Science Fair project work provides an opportunity to extend science beyond the classroom and to take an in-depth look at a topic that is of interest to them personally.

Canada Wide Science Fair

The Youth Science Canada showcase event, the Canada-Wide Science Fair (CWSF) is the largest extracurricular youth activity related to science and technology in Canada. Each year some 450 young scientists are chosen to compete from the top ranks of approximately 25,000 competitors at over 100 regional science and technology fairs staged across the country.

QRSTF History

Over the last 60+ years we have been located in armories, schools, the Quinte Mall and now Loyalist College. We provide a venue for thousands of students to showcase their science knowledge. Over the years many entries from the Quinte region have won national recognition. The QRSTF is registered independently as a non-profit corporation and a registered charity.
